JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

9 Japanese, 4 German, 4 Norwegian, 2 Hawaiian, and 1 Danish; with crews aggregating 4,790.

Thirty-nine steamers carried steerage passengers, concerning whom I inclose a detailed statement, to the number of 11,186, as against 6,938 during the immediately preceding half year, and 9,429 in the corresponding period of 1897, showing a decided increase in the amount of steerage travel through and from this port.

The number of steerage passengers, added to that of the crews of all vessels inspected, gives a total of 16,076 persons individually examined during the six months.

I am, sir, very respectfully, your obedient servant,

STUART ELDRIDGE, M. D.,  
Sanitary Inspector, U. S. M. H. S.

VENEZUELA.

*Termination of smallpox epidemic at Puerto Cabello.*

PUERTO CABELLO, July 1, 1898.

SIR: I have the honor to inform you that this port, after being closed since March 25, 1898, has again been opened for pratique by the government of the country, the news of same arriving to-day, as smallpox has disappeared.

I am, sir, your obedient servant,

WM. H. VOLKMAR,  
Vice-Consul.

ACTING ASSISTANT SECRETARY OF STATE.

STATISTICAL REPORTS.
